Motivated and detail-oriented software engineer with a strong foundation in software development and problem-solving. Experienced in designing and delivering efficient, scalable, and reliable solutions for real-world challenges. Committed to continuous learning, adapting to new technologies, and improving processes. Demonstrates strong analytical thinking, attention to detail, and the ability to manage multiple projects effectively. Eager to contribute to dynamic teams and deliver impactful results. Open to opportunities across India and remote positions.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C, C++

Frameworks & Libraries: Node.js, Express.js, React

Databases: MongoDB, SQL

Web Technologies: HTML, CSS, Rest APIs

Tools: Git, GitHub, Postman

Soft Skills: Problem-solving, Attention to detail, Teamwork, Communication, Project management

PROJECTS

Task Manager API – Back End Development

- Developed a Task Manager API using **Node.js** and **Express.js** to manage tasks efficiently, similar to a to-do list application.
- Implemented CRUD operations with **RESTful API endpoints**, enabling task creation, updating, deletion, and retrieval.
- Integrated **MongoDB** for data persistence, ensuring scalable and efficient task management.

E-Commerce API – Back End Development

- Project URL: <https://e-commerce-api-anbuselvan.netlify.app/>
- GitHub Repository: <https://github.com/Anbuselvan04/e-commerce-api>
- Developed a full-featured backend API using **Node.js**, **Express.js**, and **MongoDB** to manage products, users, and orders.
- Implemented **RESTful endpoints** for CRUD operations, user authentication, and order processing.
- Integrated secure authentication with email/password and token-based sessions.
- Designed the database schema for efficient data management and seamless relationships between users, products, and orders.
- Deployed the API on **Netlify** for scalable and reliable access.
- Included error handling, validation, and performance optimizations for real-world usage.
- Maintained a version-controlled **GitHub** repository for code management and collaboration.

PROFESSIONAL EXPERIENCE

Web Development Intern – Connect Infosystems

- Built responsive and interactive web pages using **HTML**, **CSS**, and **JavaScript**, ensuring compatibility across browsers and devices.

- Developed mini projects such as a **Bio Data Form** and **Resume Webpage**, improving design and deployment understanding.
- Collaborated with a small development team to structure front-end layouts and improve **user interface consistency**.
- Applied **project management skills** and version control via GitHub for code maintenance.

NOTABLE ACHIEVEMENTS

- Participated in **IBM Datathon 2023**, developing a **gold price prediction model** using machine learning techniques and achieving strong predictive accuracy.
- Completed a certified **RPA course at ICT Academy**, gaining exposure to UiPath and real-world automation concepts.
- Successfully completed a **Web Development Internship**, demonstrating collaboration, project implementation, and problem-solving skills.

EDUCATION

Saveetha Engineering College – B.E. Computer Science and Engineering CGPA: 8.71	2021 – 2025
St. Joseph's Matriculation Higher Secondary School HSC, Percentage – 92.8 %	2021
